Multiple File upload thru HOST Concurrent Program

Multiple File upload thru HOST Concurrent Program

Requirement:-

A FTP location having multiple file and we need to upload all files in system or any staging Table. based on that we can write some validation/program/interface anything.

Solution:-

- 1. Create table for data upload
- 2. Create .ctl Control File
- 3. Create .Prog File
- 4. Login to Putty
- 5. Create a Soft Link for Prof file for host program
- 6. Login in Filezilla or Winscp for file movement
- 7. Transfer all files
- 8. Provide Full Grants to .prog file
- 9. Register a concurrent HOST type program in Oracle ERP.
- 10 Run that program
- 11. Check all file moved or not to destination location
- 12. check into the TABLE.

See my video on my you tube Channel "ORACLE TECHNICAL SHOOTER"

1. Create Table Syntax:-

```
CREATE TABLE XXSD.XXSD_SQL_LOADER_TEST_TL (

HDR_ID NUMBER,
EMP_NAME VARCHAR2(100 BYTE),
EMP_DEPT VARCHAR2(100 BYTE),
EMP_DATE DATE,
CREATION_DATE DATE,
ORG_ID NUMBER
```

2. Create .CTL file Syntax:-

OPTIONS (SKIP=1) LOAD DATA APPEND

(MK)

Blog Archive

- **2021** (17)
- **2020** (96)

```
INTO TABLE XXSD.XXSD_HOST_PROGRAM_TL
FIELDS TERMINATED BY ','
OPTIONALLY ENCLOSED BY ""
TRAILING NULLCOLS
EMP NAME ": EMP NAME",
EMP_DEPT ":EMP_DEPT",
EMP_DATE ":EMP_DATE",
HDR_ID "XXSD.XXSD_HOST_PROGRAM_SEQ.NEXTVAL",
CREATION DATE SYSDATE
3. Create .prog file Syntax:-
FCP LOGIN=$1
v file dir=/u08/STG APP/apps/apps st/appl/xxsd/12.0.0/Custome Folder
v_arch_dir=/u08/STG_APP/apps/apps_st/appl/xxsd/12.0.0/Custome_Folder/Archive
echo "
               INPUT PARAMETERS
echo "File Directory"$v file dir
echo " Archive Directory"$v_arch_dir
echo " "
cd $XXSD TOP/CustReferral
echo 'pwd'
#Checking number of files in directory
#Clearing contents of check.txt
> check.txt
v_file_count=`ls XXSD_MULTI_FILE*.csv |wc -l`
echo "Count is $v_file_count"
if [[ $v_file_count -gt 0 ]]; then
#writing the file name in directory to text file
echo "Inside If"
Is XXSD_MULTI_FILE* > $v_file_dir/test.txt
for file in $(cat test.txt)
echo "File_Name: $file"
L TODAY DATE=`date +%d-%m-%Y %T`
L LOG FILE='basename $file'
L_BKUP_FILE=`basename $file`
L_LOG_FILE="$file"_"$L_TODAY_DATE.log"
L_LOG_FILE="$v_file_dir/$L_LOG_FILE"
L_BKUP_FILE="$file:$L_BKUP_FILE_$L_TODAY_DATE"
L_BKUP_FILE="$v_arch_dir/$L_BKUP_FILE"
sqlldr userid=$FCP_LOGIN control=$XXSD_TOP/bin/XXSD_MULTI_FILE_CONTROL.ctl
log=$L_LOG_FILE silent=feedback bindsize=100000 data=$file
if [ $? -eq 0 ]
 then
   echo " "
   tail $L_LOG_FILE
   echo " "
```

Multiple File upload thru HOST Concurrent Program

Multiple File upload Thur Oracle Loader Or Externa...

Oracle Loader or External Table Concept

Multiple File upload Thur Oracle SQL*Loader Program

2016 (2)

```
echo "***SUCCESS*** SQL*LOADER FINISHED SUCCESSFULLY"
   echo " "
   echo " Archiving before Exit !!"
   mv $v file dir/$file $L BKUP FILE
   echo "File Archived at Path $L_BKUP_FILE"
  echo "Error*** SQL*Loader finished with some error. See below log for more information"
  echo " Error during Load of file : $file"
  echo "`cat $L_LOG_FILE`"
  l_exis_status=1
 fi
done
echo "Remove Contents of Directory $v_file_dir and Move to $v_file_dir/Archive"
mv $v_file_dir/XXSD_MULTI_FILE*.csv $v_file_dir/Archive
echo "Script Ends"
else
echo "inside else"
echo "X" > $v_file_dir/check.txt
exit 0;
fi
```

4. Login Putty:-

5. Go to :- cd /u08/STG_APP/apps/apps_st/appl/xxsd/12.0.0/bin

```
login as: stgapp

UNAUTHORISED ACCESS IS PROHIBITED!!

Using keyboard-interactive authentication.

Password:

Last login: Fri Feb 22 17:33:02 2019 from 10.20.100.204

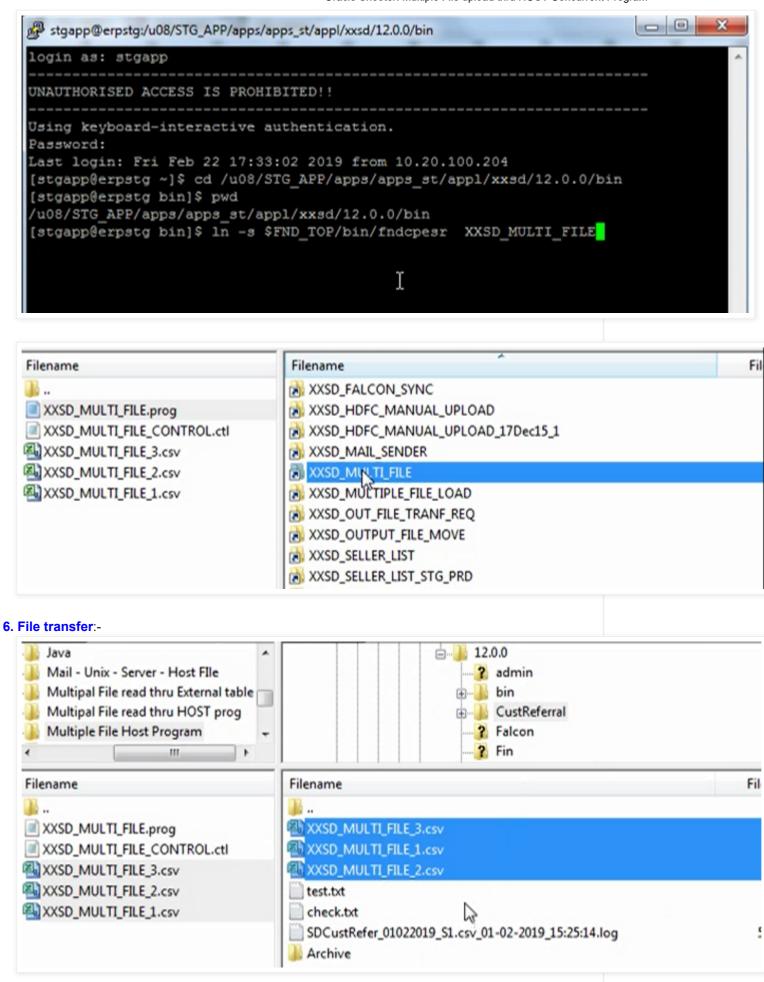

[stgapp@erpstg ~]$ cd /u08/STG_APP/apps/apps_st/appl/xxsd/12.0.0/bin

[stgapp@erpstg bin]$ pwd

/u08/STG_APP/apps/apps_st/appl/xxsd/12.0.0/bin

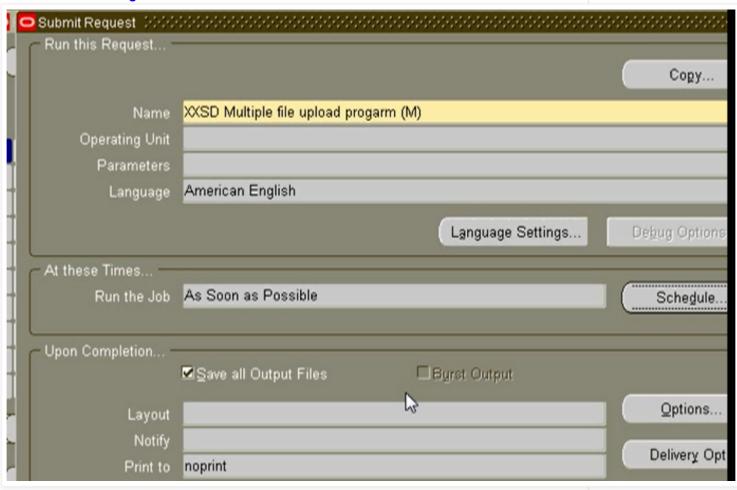

[stgapp@erpstg bin]$
```

5.1. Run This for Sfot Link:- In -s \$FND_TOP/bin/fndcpesr XXSD_MULTI_FILE_UPLOAD

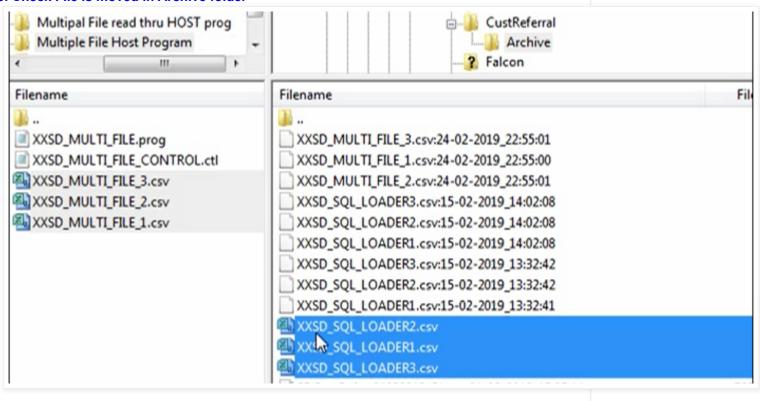

7. Provide Full GRANT:- just right click on file and provide full permission

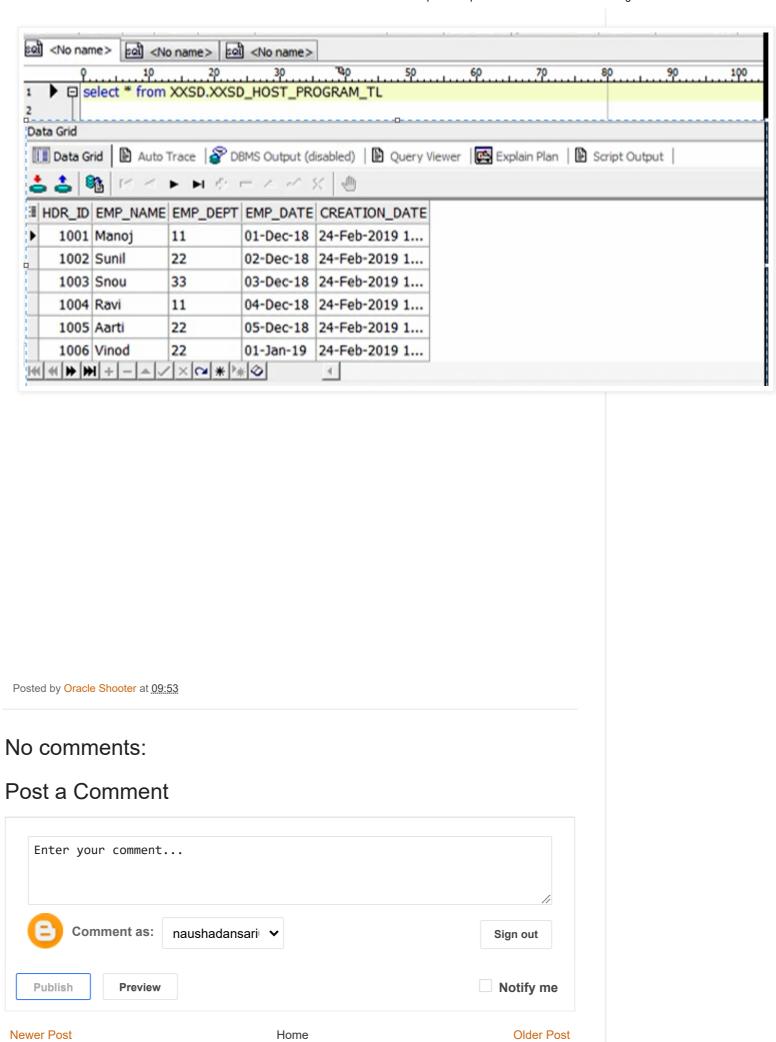

8. Run Concurrent Program

10. Check File is moved in Archive folder

11. check into the table
